FOR IMMEDIATE RELEASE:

ACT BIOMASS BOILERS RECEIVE CRITICAL CERTIFICATION

Schenectady NY:

Advanced Climate Technologies (ACT), first manufacturer in the United States to produce these fully automatic wood chip / wood pellet boilers used for heating commercial buildings has received the **INTERTEK / ETL Listing**. In another industry first, ACT Bioenergy is demonstrating its commitment to the most efficient and SAFE wood chip / wood pellet boilers available and manufactured in America. The New York State Energy Research and Development Authority (NYSERDA) is a partner organization that supported the effort to gain this important safety accreditation.

With the INTERTEK / ETL Listing, ACT Bioenergy boilers now carry the following accreditations:

- INTERTEK / ETL Listed and Labeled
- Conforms to UL 2523
- Certified to CSA B366.1
- Certificate of compliance for the U.S. EPA 2015 particulate matter emission standards
- Approved by NYSERDA / RHNY

ACT manufacturers in a state of the art, 70,000 SF manufacturing facility based in Schenectady, NY. and distributes boilers throughout North America. For more information, please contact us at info@actbioenergy.com
